

2021-2022 RCSC Transportation Information

The policy of Rensselaer Central Schools Corporation is not to allow transfers, changes, or alternative routes/stops. Students are allowed to have one bus in the morning and one bus in the afternoon. These must be the same Monday through Friday. It is the parent/guardian responsibility to contact the transportation department to update route information to implement this new policy.

RCSC encourages families to consider driving or walking as much as possible to and from school to help reduce crowding on buses.

RCSC encourage students to socially distance themselves at bus stops and expects students to arrive at the bus stop wearing masks. Masks will be required by all students while they are on the bus, including transport to athletic events.

Bus drivers and monitors will wear face coverings, and will sanitize hands before and after each physical interaction with students.

All students riding a bus will be assigned a seat to assist in social distancing and tracking in the event there is a positive diagnosis of COVID-19. We have hired additional bus aides who will be logging students who get on the bus with Tyler's Bus Attendance app. Students in the same households will sit together as much as possible.

School buses will be disinfected at the end of the morning and afternoon routes.

Some windows and roof hatches will remain open on the bus to facilitate good airflow as weather permits.

Afternoon car riders and walkers will be dismissed from the middle school at 3:08 p.m.

Bomber Blvd. will then be closed from the west drive at the middle school to the east end of the circle drive at the high school for bus loading ONLY! Buses will park along the sidewalk on Bomber Blvd. High school will dismiss as usual and students will board their bus once they get to the sidewalk.
